

Limited Permit X-Ray Technician Program

Responsibilities of a Limited Permit X-Ray Technician

Limited Permit X-Ray Technicians take radiographs of various parts of a patient's body for analysis by a Physician or Radiologist. Career Care Institute's Limited Permit X-Ray Technician Program will prepare the graduate to take the California State Examination in three limited permit categories: Chest, Extremities, and Torso-Skeletal. The student will also receive training in back office Medical Assistant with training in: vitals, ancillary medical procedures, and receive a certificate of instruction in venipuncture and injections. Limited Permit Radiographers or X-Ray Technicians are trained to perform procedures commonly needed in outpatient clinics, physicians' offices, ambulatory care centers, urgent care facilities, and some imaging centers.

<u>Length of Program</u>	<u>Class Schedule</u>
Months: 12	Theory: Monday through Thursday from 9:00 am to 1:30 pm
Weeks: 52*	<u>OR</u>
Hours: 1120	Monday through Thursday from 5:00 pm to 9:30 pm
CIP Code: 51.0911	* Externship: Monday through Friday from 8:00 am to 5:00 pm <u>OR</u> 9:00 am to 6:00 pm

*NOTE: *Hours vary depending on Externship site. (508 hours are mandatory to receive certificate). Students attending evening classes must be available to complete externship training during regular business hours. CCI cannot guarantee that students will be placed in a clinical site during evening hours. Additionally, LPXT students must complete a minimum of 40 hours per week of clinical training.*

Mandatory Prerequisites

The following are required before the first day of class:

- Passing Score (pre-entrance exam)
- High School Diploma or GED Equivalent
- ID or Driver's License
- Social Security Card (signed)
- Negative TB Result
- Program Director's Interview
- Background Check & Negative Drug Screen
- Orientation

Testing Dates and Requirements

- Testing times are available by appointment only!
- \$40 CASH ONLY fee is required on the testing date
- The testing process will take about 1½ hours to 2 hours
- The entrance exam is valid for one year

Graduation

Upon completion of the program, the graduate will be awarded a certificate of completion in Back Office Medical Assisting/EKG Technician Assisting and Limited Permit X-Ray Technology in Chest, Extremities and Torso-Skeletal. A certificate of instruction in Venipuncture and Injections will also be awarded. The graduate will then be eligible to take the State of California Limited Scope in Radiography Examinations for Chest, Extremities, and Torso-skeletal. The graduate will also, be able to sit for the National Certified Medical Assistant examination.

NOTE: The graduate must pass the California State Examination to receive a position as a Limited Permit X-ray Technician. Additionally, graduates will receive a review course after their externship to help prepare for the California State Examination.

Branch Campus • 2051 Solar Drive, Suite 100 • Oxnard, California 93036 • phone: (805) 477-0660 • fax: (805) 477-0669
Branch Campus • 22500 Town Circle, Suite 2205 • Moreno Valley, California 92553 • phone: (951) 214-6446 • fax: (951) 214-6440

**Course Summary**

Course: Basic Back Office (BBO)
Skills Clock Hours: 144 (8 weeks)

Description: This course covers medical terminology, word parts and abbreviations. The student will learn how to take patients' history, height/weight, temperature, pulse, respirations, and blood pressure. Student lab activities will include vital signs using various methods, injections, venipuncture, EKG, and urinalysis.

Course: LPXT1 & LPXT2
Clock Hours: 468 (26 weeks)

Description: These modules are an introduction to limited radiography, pertinent terminology, medical ethics, equipment operation, radiological physics, image evaluation, mathematics, and exposure techniques for the limited radiographer, digital radiography, and radiation protection.

Student will also observe procedures and be required to perform procedures in the x-ray laboratory. Modules will also cover radiographic anatomy and physiology, radiographic positioning of the chest, extremities, and torso skeletal. As well as, cover radiographic positioning of Pediatric and Geriatric patients.

Course: LPXT3 & Review
Course Clock Hours: 508

Description: The student will be required to complete a minimum amount of radiographic procedures: 50 Chest, 200 Torso skeletal, 50 lower extremities, and 50 upper extremities. The externship period is a minimum total of 472 externship hours (minimum of 40 hours per week). Externship will be completed after Didactic training.

The student may complete externship at their current employer, if radiographic services are available. Please note that current employers must first be approved by the CDPH-RHB to accept students. CCI can provide the student and employer with the information needed to do so. Otherwise, the student shall cooperate with the Externship Office for placement at another facility.

In addition, once completed with externship, students will be required to attend the Review Course. The student will receive lectures and be given assignments to facilitate their review on all components of the Limited Permit X-Ray Technician Program. The Review Course is a total of 36 hours.

Licensure

The Graduate must pass the California State Examination to receive a permit in Limited Scope Radiography. The graduate may then accept, a position as a Limited Permit X-Ray Technician. Graduates will receive a refresher course during their externship to help prepare them for the California State Examination. Additionally, graduates will have the opportunity to take the National Certified Medical Assistant examination, which makes them Certified Medical Assistants if they pass the exam.

Career Care Institute is accredited by the Commission of the Council on Occupational Education (COE).
